2014 – 2015

Student podiatrist 3rd & 4th year external placements:

Southern Health (Kingston Centre and Casey Hospital) - 2014

Alfred Health (Caulfield Community Health Service) - 2015

Eastern Health (Peter James Centre and Maroondah Hospital) – 2015

- Predominantly treated high risk foot patients with diabetes complications and wounds.
- Built upon skills in establishing rapport with patients, formulating and carrying out treatment plans, administration work and time management.

2014-2015

Student podiatrist 3rd & 4th year internal placement

La Trobe University Podiatry Clinic

- Internal clinic provided the opportunity to develop and strengthen skills used as a podiatrist.
- A variety of cases were treated including biomechanics, diabetes, paediatrics and dermatological disorders.
- Allowed for development of an understanding of methods used to approach assessments, patient interviews and development of treatment plans.

2015

Volunteer student podiatrist at Oxfam Trialwalker (2015)

2011 – 2012

Receptionist

Master Tutoring (2011-2012)

- Actively worked with students, parents and tutors to ensure classes ran efficiently, organise classes and schedule classes.
- Financial responsibilities included handling payments, formulating payment plans and monitoring financial growth through reports and documentation.
- Advertising strategies were also developed and implemented.

Skills and Attributes:

- **Work independently:**
During my career as a podiatrist, I worked autonomously across several sites to see patients individually and address their presenting complaint.
- **Work within a team:**
I have worked with multi-disciplinary teams to provide holistic care to patients. This involved providing podiatric input as well as considering other team member's ideas to formulate treatment plans.
- **Formulating treatment plans and provide patient centred care**
While formulating treatment plans which are patient centered, I have drawn upon my critical thinking skills to analyse and address specific patient's conditions.
- **Build rapport with patients**
- **Administration work**
- **First Aid training**
- **Current drivers licence**
- **Current police check**
- **Current AHPRA registration**
